SUMMARY: After submitting the Application for Admission and Application Fee, the Application undergoes a preliminary review to check for completeness and program eligibility. The Applicant is then assigned a Student Advisor, whom contacts the Applicant to provide access to the Student Web Portal* (via e-mail). It generally takes between one to three weeks to gain access to the Student Web Portal, dependent upon the number of applicants/students for a given semester, any observed holidays, and how many applications are in the queue. Once in the Portal, the Applicant will have the opportunity to apply for Financial Aid (Student Loans, Scholarships, & Grants) and Payment Plans, submit Verification Documents to prove program eligibility and provide any documentation that may be missing from the Application. If accepted into the program, a Student Enrollment Profile is issued containing an overview of the Enrollment offer and the Educational Costs & Expenses Profile details financial costs and fees. A Student Account is then set-up. Students must login and make any payments that may be due, as well as download the Program Materials (textbooks) and access the E-campus: <http://EruditeNursing.com>

*It may take 30 days or more to receive a response once the Application & Fee have been submitted. We appreciate your patience.
